ALL PEOPLE'S MISSION

New Superintendent Comes to Dorchester Street Institution in September

It is only within recent years that social service has been regarded as a calling requiring as hard a training as the ministry or any of the professions and a minister who has taken a special course of study along such lines is therefore an acquisition to any city. Montreal is to have such a man as the Rev. C. S. Laidman, B. A., B.D., who arrives here on September 1 to take up his duties as superintendent of All People's Mission.

Mr. Laidman was born in Westwore County, Ontario, in 1876, and commenced his education at the public schools and the Caledonia High School in Hamilton. He taught school for a time and then went west to Alberta in 1898, where he spent some time on a ranch near Lacombe. The call for church service came to him there, and he was licensed as a preacher by the official board and entered the Methodist ministry in 1899. He served his time as a probationer at Fort Saskatchewan, where the circuit consisted of about a thousand square miles, and had to be covered largely on horseback.

Then followed a period in Wesley College, Winnipeg, from which he graduated in 1905. From the college where he took both his degrees, he went out to the prairie again, as a pioneer missionary along the projected line of the Grand Trunk Pacific until last summer when he left for New York to take a course of study in social work. During the past five months he has been pastor of St. John's Chapel, New York, under the direction of the Church Extension Society.

'My work in the west,' Mr. Laidman informed the 'Witness,' 'inspired me with a sense of Canada's great future. I felt dissatisfied with the results of regular church work for I saw there were large numbers, especially in the cities, who were not being reached. I realized the tremendous problems being created by the vast influx of foreigners, and therefore decided to study at first hand in order that my ministry might be more fruitful in its social side. I expected to go back west, but this call came quite unexpectedly and I decided to accept it because of the great field offered by Montreal.

Mr. Laidman's father came from Yorkshire and his mother is descended from United Empire Loyalist stock. He was taking a course of study in Columbia University for the Ph.D. degree when asked to come to Montreal.—Montreal Witness.

AMERICANS GETTING JEALOUS

On the United States side of the border the break to Canada is beginning to get on the nerves of the business men. They do not like it. They particularly do not like it because the citizens they are losing belong to the class that buys sterling goods and pays for them. That is one reason why items appear every once in a while regarding the formation of this or that association whose aim is to show the people that the United States is a good country to live in.

A movement just started by the business men of Duluth has as its object the diversion of some part of this Canadianward movement to up per Minnesota, and the medium chosen for the advancement of the undertaking is extensive advertising. And it is to be persistent and consistent. The line will not be drawn between winter and summer. Twenty-five thousand dollars has been granted by the state legislature toward the \$100,000 advertising fund that the federal commercial clubs of the state propose to raise.—Toronto Globe.

The handsome new C. P. R. depot at Red Deer will be completed and open for business this week.

A movement has been started in Edmonton to have the penitentiary moved further from the centre of the population.

Insuffl school board has decided to open a standard VIII. class, and that in future all pupils taking the high school standards shall pay fees.

The citizens of Olds are planning a monster celebration for Labor Day Monday September 5th, among the features of which will be baseball and football matches.

The Imperial Oil Company is establishing warehouses at Camrose and Sedgewick, with the object of making them each a distributing point, and talk of doing the same at Dayland.

This week gangs started working night and day on the large piers for the construction of the C.P.R. high level bridge over the Saskatchewan River between Edmonton and Strathcona. 1b

Hungarian Partridge, no open season.

Mink, Fisher or Martin, January, February and March, November and December.

Otter and Muskrats, January, February, March and April, November and December.

Beaver, no open season.

The above should be observed by all hunters and sportsmen and for the benefit of hunters and trappers we append the following regulations taken from the game act:

1. Hunting over enclosed lands prohibited without having obtained the consent of the owner or occupant thereof.
2. No person shall shoot or hunt between one hour after sunset and one hour before sunrise.
3. No person shall destroy game by means of poison, narcotics, sunken punts, nightlights, traps, snares, snare, spring, automatic or machine shot gun.
4. No person shall export game without a permit from the Minister of Agriculture.
5. No person shall wilfully disturb or take the eggs of any game or other bird protected by the game act.
6. No dog shall be used by anyone to hunt big game.
7. No person may shoot more than one deer, moose or caribou in any one year.
8. No person shall hunt any big game without a license.
9. No person shall buy or sell any game heads unless branded by the department.

game heads unless branded by the department.

10. No person shall buy and sell, deal or traffic in the flesh of any big game or game bird without a license.

11. No person shall act as a guide or camp helper without a license.

'OUTDOOR CANADA'S' name changed to THE ATHLETIC WORLD. The August number of 'THE ATHLETIC WORLD,' a new name for 'OUTDOOR CANADA' Magazine, has just been received at this office. Since this publication was taken over by W. J. Taylor, Limited, Woodstock, Ont., each issue has shown a marked improvement over its predecessor. Its change of policy to that of a national athletic periodical is this month carried out both in name and nature. Besides the name in title the size has been increased and the contents augmented. Judging by the August number, full as it is of good up-to-date reading pertaining to things athletic, a conspicuous place is assured 'THE ATHLETIC WORLD,' among the leading Canadian national publications.

ALIX WON CUP

Red Deer, Aug. 25.—Alix is the owner of the Brewery trophy unless the protest made against the victory of the Alix team made by Hardisty is sustained.

Alix won the ball game with Red Deer this morning by a score of 5 runs to 0.

This evening Alix defeated Hardisty by a score of 5 runs to 4.

There were two umpires in the game and they cannot agree. Hardisty has protested the game. Winnipeg, Aug. 25.—A big deal was consummated yesterday when W. Georgeron, of the well-known Calgary wholesale firm, bought the business of Larsson, the wholesale grocer of this city. It is stated that Georgeron has organized a million dollar company to handle the business.

NEARLY MAD WITH SICK HEADACHE

There are few people who have never experienced a sick headache, and those who have not may be considered very lucky, as it is one of the most aggravating headaches a person can have. There is only one way to prevent these horrible headaches and that is, to get rid of the cause.

MILBURN'S LAXA-LIVER PILLS will do this for you. Miss M. Denney, Edmonton, Alta., writes: 'I wish to write you of your splendid remedy, Milburn's Laxa-Liver Pills as a cure for Sick Headache. I have been nearly mad with headache for nights together, and have not been able to close my eyes. I was working at a lady's house and she told me of your Laxa-Liver Pills. I took four pills of them and I have not been troubled with a headache for about six months.'

AMERICAN WANDERLUST.

A Habit Which Strengthens the Cohesive Unity of the Nation.

Less than half the members of the United States Senate and house of representatives are native born in the states which they represent. Nothing could more clearly show the short activities of the American people and that constant intermingling of the inhabitants of the several states which adds so much to the cohesive unity of the nation. The boy who goes to a distant state often accomplishes more than the one who goes straight on to the territories of his father in the home village. Even Daniel Webster was not born in the old Bay State, whose influence and dignity he so well sustained and whose people mourned him so sincerely when his great life closed.

This wandering from state to state has resulted in the organizing in New York City of many state societies, which aim to gather together the natives of their respective states annually to revive the pleasant memories of the old home days, with their thousand clinging ties.

What would happen if the American people should cease to wander about the country? Is a question often asked. It is said that an eastern man never amounts to anything until he goes west and that a western man has to come out in order to attain his full stature mentally. The northern man is advised to go south to learn gentle courtesy and chivalric bearing; the southerner to go north to add more iron to his blood. There can be no doubt that this constant evolution has encouraged the birth of new ideas, just as the whirling of the kitescope developed a boy into our present wonderful moving pictures, which give us glimpses of life in motion all over the world—Joe Mitchell Chapple in National Magazine.

THE HURRYING BARBER.

Speed Manifested More in the Motion Than in the Results.

"Barbers," remarked the man with the short hair, "are born unable to hurry. Just you go into a shop, as I did the other day, wanting a hair cut, and ask the barber how long it will take. He told me, 'Oh, about twenty minutes!' and I said to go ahead.

"That barber honestly believed he was hurrying, but he couldn't leave us those little snip-snap-snap about the back of the neck they are all so fond of doing, and he had to cut the hair as if he were chipping priceless marble. When it got to be about half an hour I said to him, 'You're a pretty bad judge of time, aren't you?' He came back with something about not wanting to turn out a poor job.

"I've known it to happen often in the case of shaving. When you tell a barber to hurry he dashes around on the tiled floor at imminent risk of falling, and he splashes the water into your eyes and your mouth, but the fact remains that he takes as much time as usual to rub the lather into your face and as much time to shave you.

"I begin to believe there is some sort of rule regarding time that all barbers observe, because I have seen them. Once I asked a barber to hurry shaving me, and he had all the motions, but took up just as much time as when he went along at his usual gait.

"I imagine they believe the customer will be satisfied with the appearance of speed, and that's the reason they run around so and breathe heavily as if winded when changing from one side of the chair to the other."

Children of Criminals.

It is a curious fact—one all at variance with the doctrine of heredity, but borne out by police records—that the children of crooks of all classes rarely turn out to be crooks themselves. Deeper study of the subject might reveal that the influence of the criminal instincts, but that the tragically close example of the punishment and wretchedness that attend a criminal career has been a terrifying deterrent. The fact, at any rate, remains. The rogues' galleries of Scotland Yard, New York and Chicago may be studied in vain for the photographs of a father and a son—Argument.

He Did His Part Thoroughly.

In order to avoid an argument with a woman sufragette on the subject of her hobby a happy bachelor gallantly acquiesced in the truth of her assertions.

"But, sir," sternly remarked the spinster, "your admission is anything but creditable to you. What, for instance, have you ever done for the emancipation of women?"

"Madam," responded the gentleman, with a polite smile and a bow, "I have at least remained a bachelor!"

Seemed All Right.

"Mamma, why don't you want me to play with that Rudegar boy?"

"Because, dear, I know the family. He hasn't good blood in him."

"Why, mamma, he's been vaccinated twice, and it wouldn't take either time."

Making and Earning Money.

"What is the difference between asking money and earning money?" asked the youth.

"Sometimes the difference is a trip to the penitentiary for counterfeiting," answered the home grown philosopher.

Enlightening Rollo.

"Father," said little Rollo, "what is an egoist?"

"An egoist, my son, is a burnt match that thinks it was the whole fire works!"—Washington Star.

City Council

The regular meeting of the City Council was held on Tuesday evening with all present except Ald. H. K. Mayor Montgomery in the chair.

Minutes of previous meeting read and confirmed.

A letter was read from J. L. Douglas, M. P. Strathcona constituency, stating that the plans for the new post office building to be erected here were being forwarded by concurrent mail for the approval of the aldermen and members of the Liberal executive. It was moved by Olin—Ellis—that the plan be referred to the public works committee to confer with the Liberal executive regarding the plans. Carried.

Dr. T. B. Stevenson, Medical Health Officer, presented his report for the month of August, stating that the health of the city was excellent, and that the sanitary condition of the city was fairly satisfactory. The report was filed on motion of Olin—Ellis.

A letter from G. Percy Blyth, auditor, stated that he had taken a Mr. Baldwin in as a partner. Letter filed.

John Galt Engineering Co. reported that the work in the city was progressing very satisfactorily, and that it was expected that the system of waterworks and sewerage in the city, with the exception of the tank would be completed by the end of the month. It was moved by Olin—Angus—that the report be accepted. Carried.

J. H. Walker, sr., wrote complaining that the contracted with the city regarding the matter of eliminating the old creek, and the drainage of his land by the new creek channel, was not being lived up to, as the present creek bed was not deep enough to drain his slough, as he expected. The contract with Mr. Walker was then referred to and it was found that nothing was said therein about draining the sloughs on his farm. After considerable discussion it was moved by Angus—Ellis—that Mr. Crane be instructed to ascertain what depth of water was left on Mr. Walker's farm, and as to the probability of deepening ditch to remove same. Carried.

In reply to the letter from the city asking if the city had the right to charge up the cost of cutting weeds on unoccupied lands to the owners, C. E. Lewis, chief weed inspector, stated that the city by-laws should cover that, also that the weed inspector must deal with a municipality, not a private individual.

It was moved by Olin—Ellis—that the public works committee engage a suitable man to cut and destroy the weeds in the city. Carried.

The clerk was instructed to have the city solicitor prepare a by-law, re the destroying of weeds.

The Standard Oil Company submitted prices for road oil. The letter was filed on motion of Olin—Ellis.

L. T. Miquelon went asking for a refund of money paid on an electric light account by the Colonial Loan Co., on a building he had rented. MacKachera—Ellis—that the matter be referred to the solicitor.

B. E. Chandler wrote stating that the demand of the public school district for the year was \$17,000. Letter filed.

Dr. Dudgeon and P. Turner addressed the council re the matter of grant of say \$500 to the Agricultural Society for the purpose of erecting suitable stock sheds on the grounds, stating that considerable stock from outside points would be on exhibition this year, and that there was no accommodation. After discussion, it was moved by MacKachera—Olin—that the public works committee confer with the directors of the Agricultural Society, go over the ground together, and make some satisfactory arrangement regarding the buildings, and to report at next meeting. Carried.

A committee from the Hercules Rotary Engine Co., consisting of Messrs. H. S. Craig, Geo. D. Wallace and J. T. Craik, interviewed the council regarding the purchasing or leasing of a lot on which to erect a demonstration plant for the new engine. It was suggested that the building would cost between \$20,000 and \$25,000, and they also wished water and sewer connection. After consideration, it was moved by Angus—Ellis—that the unsurveyed north-east corner lot on McDonald St., and west of the power house, be leased to the Hercules Rotary Engine Co. for the term of three years with rental of \$10.00 a year. Carried unanimously.

Olin—Angus—that the matter of water and sewer connections to the Hercules Rotary Engine Co. be referred to the water committee to report at next meeting. Carried.

Ald. MacKachera, chairman of the water and light committee, reported that one-third of the superintendent's wages at the power house, and one man's wages should be charged up to the waterworks department. On motion the report was adopted.

An animated discussion then took place regarding the conditions at the power house. It was reported that the air pipe leading from the air compressor to one of the walls was leaking, also that the stand pipe was empty of water for some time on Sunday. It was moved by Olin—Angus—that the fire water and sewer committee go thoroughly into the matter and find out why there was no water in the stand pipe on Sunday and also to have Mr. Crane uncover the air pipe and repair the leak. Carried.

Ellis—Wagner—that the fire, water and sewer committee be authorized to have a float with hall placed at the tank to show the amount of water in the tank at any time. Carried.

The matter of fitting up the city hall with water and sewer connections was then considered, when it was moved by Olin—Wagner—that the fire water and sewer committee have Mr. Crane prepare a plan for this work and submit same at next meeting. Carried.

The following accounts were then passed for payment: Waterworks and sewerage, \$1681.45, general, \$1212.40, electric light, \$655.35.

A. A. Grant requested that his deposit cheque in connection with the gas bill be refunded. It was moved by Ellis—Wagner—that the cheque be returned. Carried.

A petition for a sidewalk on the north side of Lansdowne street between Railway street and McDonald street was then presented. It was moved by Angus—MacKachera—that the petition be granted, and that the best of the walk being removed from Pearce and McDonald streets be used for this work. Carried.

Angus—Ellis—that the public works committee report at next meeting on the best method of disposing of the old sidewalks. Carried.

Meeting adjourned.

Y. M. C. A. CONCERT COURSE

The citizens of Wetaskiwin are pleased to learn that the Y. M. C. A. committee has an opportunity of this winter bringing in five of the best concert to be heard in Western Canada. The concerts they brought in last winter were very popular and thoroughly enjoyed. The following is the list of attractions they have an opportunity of presenting to the public:

Shakespeare's "Twelfth Night," played by a company of 14 people.

"The Merry Musicians," a company of 5 people.

"The Lyceum Players," 4 people including an Italian harpist.

"The English Grand Opera Singers" who were here last year. There are in all 10 people in the company this year.

"The Robert Mellicie Co.," 4 people; also here last season.

The first of the week addressed postal cards were sent to the subscribers of last winter's concerts in the winter, by many others, and if these are signed and returned promptly in sufficient numbers to guarantee the expenses of the concerts and no doubt they will be these concerts will be engaged without delay. Those receiving cards are requested to return them at once and encourage the committee in the good work they have in hand.

CONVICT MAKES BREAK FOR LIBERTY

Edmonton, Aug. 30.—A convict, London alias Chas. Hyler, a convict in the penitentiary, serving a seven-year term for horse stealing at Deer, made a break for freedom while working in the coal mines on the penitentiary property this afternoon, but was soon afterwards recaptured by the mounted police.

Corporal Marshall's horse fell, knocking his neck. London has been an exemplary prisoner. He was sentenced in 1907, and has earned by good conduct over 200 days. He will now lose this.

DUSTBANE

is a green colored powder, packed in tin cans ready for use. In sweeping a carpet take one or two handfuls, according to the dust. Sprinkle where you are to begin (not all over the carpet) then sweep as you always do. The powder is swept ahead of the broom, and falling on the carpet absorbs the dust, leaving the carpet clean and bright. The dust is not thrown into the air to settle back on the carpet and furniture. Dustbane should be used in sweeping carpets, rugs, straw matings and bare floors. It costs nothing to try.

Special

For this week only. We are authorized by the manufacturers of Dustbane to send you a can of their sweeping compound. They want you to use this on trial for one week. At the end of this period if not found satisfactory we will take it back, and there will be no charge for quantity used. If it does away with dust on sweeping day you want it. Dusty Friday no more. A handful of Dustbane makes sweeping a pleasure.

Local News: Items

Mr. and Miss Day, of Dryden, passed through the city on Tuesday, en route for Edmonton to meet Mr. Day, who just returned from a trip through the Peace River country in connection with the party of newspaper men, who made the trip as guests of J. K. Cornwall, M.P.P.

American papers have been making quite a noise lately about Americans in Canada returning to the States. It turns out that not more than four hundred American settlers have gone back from the Canadian West and many of these went back only to get their wives and families.

Mrs. J. H. Horner and family returned on Sunday after spending the summer vacation at Edmonton, and Lake and other parts of the province. Mr. Horner did not return, being detained in Edmonton, where he was under the care of a specialist, taking treatment for one of his ears.

Mr. and Mrs. W. B. McOlesney, who have been in the East on business in connection with the Hercules Hotchkiss Engine Company, returned home on Friday morning last. Mr. McOlesney is more enthusiastic than ever over the possibilities of the new invention. It is expected that the new engine will arrive here about the middle of October, but it will be some time later before demonstrations will take place, as the machinery connected with the testing plant must be installed in a suitable building which will be erected for the purpose.

At a meeting of the citizens in the city hall on Monday afternoon last, it was unanimously decided to make application to the Aberdeen Association, Ottawa, for a Lady Minto Circulating Library to be established here. Mr. M. E. O'Brien has kindly consented to act as librarian, and to allow the library to be placed on the shelves in his law office. The first shipment, which will likely be 300 or 400 volumes, should reach here before the first of October. This will give the public an opportunity of reading the best works free of cost, and no doubt as soon as the books arrive the library will be well patronized.

The leading article in the Canadian Magazine for September is entitled "Napoleon's Burial and Exhumation." It takes the form of some reminiscences of a gentleman who was born in Saint Helena and who witnessed both ceremonies, and is edited by Dr. A. H. U. Colquhoun, Deputy Minister of Education for Ontario. The article is well illustrated. Another well illustrated contribution is "Saint John the City of Loyals," by Emily P. Weaver. Another of those interesting histories of some of our famous mining camps is told by Harold Shands in a well illustrated article entitled "Bonanzas of the Slokan." Ernest McGaffey contributes an interesting account of "The Red Men of Vancouver Island." The stories in this issue are also of a high order.

A meeting of the License Commission was held in the city hall on Friday last to consider the application for the hotel license for the new King George hotel at New Norway, which has just been erected by Messrs. Deane & David. A number of the residents in and around New Norway were present to register their protest to the granting of the license. Mr. Boukell, organizer of the No-License League in the province, started to catch the board on certain points in the law, which were not clear to him, and he was informed that he could get this information from the

department. It was decided that the license could not be recommended, as it was pointed out, through Rev. Mr. Young, who acted as spokesman for the party, that there were not enough bona fide residents in the village to legally make the necessary application, as at least four of the names on the petition would not qualify.

WETASKIWIN WATER IS EXCELLENT

The following is an extract from the report of the provincial health officer regarding the city water in wells No. I, and III, at the power house which was recently sent to Edmonton to be analyzed.

"From the results of the analysis it is shown that both wells are from the same geological stratum or source. The water in both wells is fairly soft and might foam upon boiling in kettles. From a chemical point of view the water is very good for domestic purposes, and is as good if not better than the ordinary deep well water. The taste of the water should improve by standing in reservoirs exposed to fresh air."
